

ALUMINIUM WINDOW SHUTTERS – SYSTEM

ALUMINIUM WINDOW SHUTTERS – SYSTEM

We have a huge pleasure to present you ALUMINARTE – original and complete system of aluminium window shutters, to fulfill your dream of elegant, functional windows.

ALUMINARTE technologie ensures durable and aesthetic solutions, while maintaining reasonable prices. Capabilities offered by the aluminum allow to produce shutters of any color from the range of RAL. We can also achieve the effect of wood structure. This type of shutters looks very effectively and naturally.

The only limitation is the imagination of customers.

ALUMINARTE system allows the execution of the framework and frameless window shutters, a full range of sizes. Our products can be equipped with adjustable filling (moving slat) or permanent (fixed slat).

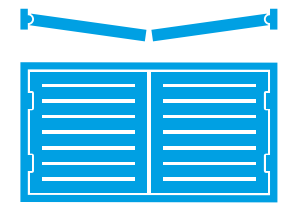

fixed slat

moving slat
